On behalf of the Australian Microscopy and Microanalysis Society, it is our pleasure to invite you to the 19th International Microscopy Congress (IMC19), to be held from 9-14 September 2018 in Sydney, Australia.

Your benefits in joining us:

- Be part of an outstanding scientific program led by world-renowned plenary speakers
- Network and share experiences and ideas with over 2000 colleagues and peers from across the globe
- Keep up to date with the latest advancements and developments in microscopy and visit our interactive trade exhibition
- Experience the stunning new International Convention Centre right in the heart of Sydney

PROGRAM HIGHLIGHTS

IMC19 represents a forum for sharing and contesting the latest ideas and technologies in the world of microscopy. The 2018 program will be truly transformational, featuring the world's thought leaders and rising stars.

The scientific program will include world-renowned plenary and invited speakers, young scientists showcasing their research, digital posters and Pre-Congress workshops. The program will encompass four main streams:

-  LIFE SCIENCES
-  PHYSICAL SCIENCES
-  INSTRUMENTATION & TECHNIQUES
-  FRONTIER ISSUES

NOBEL PRIZE WINNER DAN SHECHTMAN

Pull up a chair at IMC19 to hear from Nobel Prize winning (Chemistry 2011) plenary speaker Professor Dan Shechtman.

Dan is just one of the world class plenary speakers taking centre stage at IMC19.

More speakers are to be announced shortly so make sure you **express your interest** at imc19.com to receive regular updates!

PRE-CONGRESS WORKSHOPS

Pre-Congress workshops are being planned at several universities within Sydney and surrounding areas.

Workshops will encompass areas of:

- Electron microscopy
- Correlative microscopy
- Optical microscopy
- Atom probe microscopy
- Sample preparation
- Data visualisation and analysis

INTRODUCING DIGITAL POSTERS

The world of scientific publishing is undergoing a renaissance in terms of rigour, reproducibility and access to data.

This year at IMC19, we have decided to mirror this philosophy and introduce digital posters to showcase scientific research.

- Opportunity to present a mini-oral presentation within the program.
- Access posters digitally on your phone, tablet or laptop, anytime anywhere during the Congress.
- Allows presenters to include interactive and real-time data.
